

School of Foreign Languages, Intermed	liate Level Writing Quiz XX/XX/202)
Name & Surname:	Duration: 60 minutes
Number:	Class:
Grade: /100	

1. Read the information below about technology and its effects on students to get an idea about the topic before you start your work.

In today's world, digital technology continues to move into every part of our lives. The effects of digital technology specifically on education have been many. Technology is changing the way students learn and people teach. Today, every person can access information and develop their skills in a flexible way without much cost because of technology. However, the effects of digital technology on education are not always positive such as the potential for distractions and so not being able to focus on your work becomes a huge issue. What is your point of view about this topic? Is it beneficial for students?

2. Write a 4-paragraph one-sided opinion essay about the given topic around 200 words. Use the outline given. Add a supporting idea of yours with two minor ideas and use it in your work. DO NOT COPY AND PASTE SENTENCES and/or PHRASES FROM THE TEXT ABOVE.

Digital technolo	Digital technology is beneficial for students.				
AGREE	DISAGREE				
developing skills in a flexible way finding resources suitable for themselves creating and spending time themselves	 losing focus easily seeing distracting content other than what students are focusing on being lost because of having too much information to choose from
