1. Read the information below about video games and their effects on students to get an idea about the topic before you start your work.

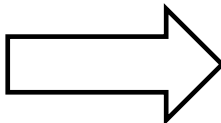

Whether video games present benefits is a controversial topic, especially between parents and children. Parents often view video games as a waste of time and think that no good can come from them. On the other hand, gaming can be a big part of a child's life and one of their favourite hobbies. But video games aren't just for kids, and they aren't a waste of time either. However, many also strongly support the opposite idea. Because of the attraction, kids spend much of their time on their PC or laptop and do not care about other activities much. What is your point of view about this topic? Are they beneficial for children?

2. Write a 4-paragraph one-sided opinion essay about the given topic around 200 words. Use the idea given in the outline. Add a supporting idea of yours with two minor ideas and use it in your work. DO NOT COPY AND PASTE SENTENCES and/or PHRASES FROM THE TEXT ABOVE.
