1. Read the information below about technology and its effects on students to get an idea about the topic before you start your work.

Today, technology is everywhere. It helps us communicate, have fun, and learn. In education, technology has definitely changed the way we learn and teach. Students and teachers use it in many ways in and out of the classroom. But we also need to know that technology can sometimes cause problems. We need to think about both the positive and negative aspects of technology to have a better education. This way, we can have a better learning experience and enjoy technology without much problem. What do you think about this topic? Is digital technology helpful for students?

2. Write a well-organized one-sided opinion paragraph about the given topic around 150 words. Use the outline given. Add a supporting idea of yours with two minor ideas and use it in your work. <u>DO NOT COPY AND PASTE SENTENCES and/or PHRASES FROM THE TEXT ABOVE.</u>
